TradePro Air Handler Block

APPLICATION: Provides support for air handlers installed in attics.

DIMENSIONS: 8" x 8" x 4"

COMPOSITION: EPS (expanded polystyrene foam)

FOAM DENSITY: 1.5 PCF

Why Sell TradePro Air Handler Blocks?

TradePro Air Handler Blocks are made of a very light-weight polystyrene but are sturdy enough to support an A/C unit.

TradePro Air Handler Blocks are white in color for easy visibility in darker settings like the attic.
