Universal Silicon Nitride Specifications

TP-IGN-UNV

Igniter Specifications

Element:

Silicon Nitride

Bracket:

304 Stainless Steel

Body:

High Temperature Ceramic

Time to 2200°F:

< 6 Seconds @ 120V

Cold Resistance:

8 – 15 Ohms @ 77°F

Operating Voltage:

102 – 132 Volts

Power Consumption:

100 – 160 Watts

Applications:

Replaces Over 100 Silicon Carbide Type Igniters

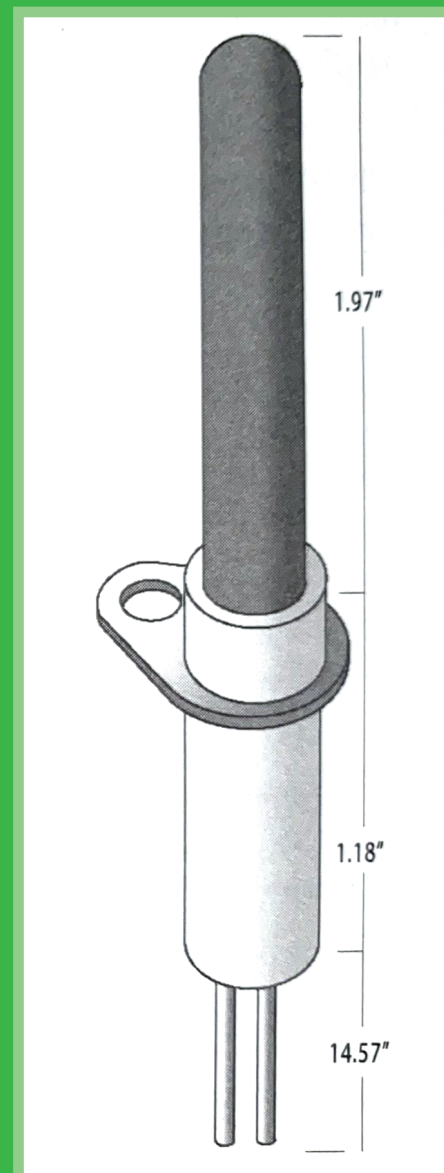

Hardware:

Included To Support Over 100 Silicon Carbide Type Igniters

Warranty:

5 Years
