PROFESSIONAL DFS
AIR PURIFICATION SYSTEM

VIVE Compact Professional Air Purification System

The VIVE Compact DFS Air Purifier is designed for small office or conference room use. It uses the same advanced, patented technology that makes VIVE the world leader in indoor air quality. The simple, stylish design compliments any work space decor.

SPECIFICATIONS

Coverage: Up to 500 sq/ft

Dimensions (inches): 11.22 x 15.15 x 22.23

Weight: 17lbs (8kg)

Colors: White

Wall mount: Optional

120V 60Hz or 230V 50Hz

Blower Speed	Energy Usage (Watts)	Air Flow	Particle Efficiency
Low	9	22 cfm	100%
Med	15	49 cfm	100%
High	25	79 cfm	100%
Turbo	61	150 cfm	100%

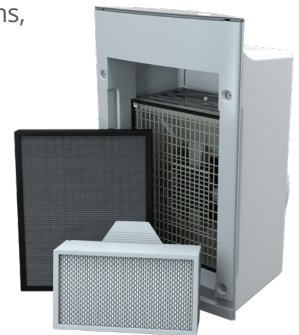

We pride ourselves on using DFS for total system efficiency, meaning every VIVE Compact air purifier achieves greater than 99.97% efficiency at .3 micron.

FEATURES

- Particle efficiency - 99.97% efficiency at .3 micron
- 6-stage VOC adsorption filter for heavy removal of harmful gases and odors
- Patented DFS technology efficiently removes up to 99% of airborne mold, bacteria, and viruses passing through the system
- Each machine is independently tested and certified to guarantee better than HEPA efficiency

- Substantial reduction in airborne microorganisms, chemicals, offensive gases, odors, and smoke.
- Less dust and dander, pollen, dust mite waste, bacteria, mold, fungi and virus protection
- Compact, ultra slim design
- Easy to setup and maintain
- A clean and fresh smelling environment
- The revolutionary DFS technology reduces bioburden and inhibits microorganism growth passing into the system through microbiostasis condition

Featured Products	Part Number
Compact	TP-I60209
Compact Pre-Filter	TP-I50213
Compact Main Filter	TP-I60209-V1
