Hardwire Only

- Exclusively for HVAC professionals.
- Compatible with any 1H/1C Conventional VIVE model's subbase.

WIFI Made Simple

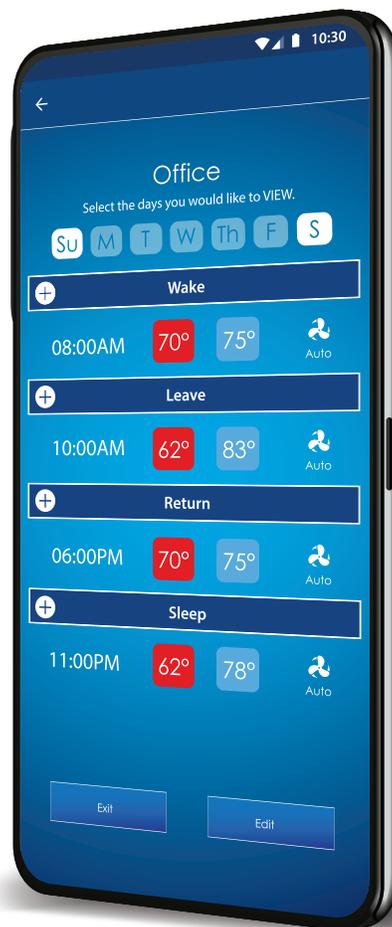

Easy Operation

Keeping the app simple minimizes call backs for technicians as well as confusion and frustration for homeowners. While other brands focus on complex features and high-priced designs, VIVE strives to be the most simple & professional solution on the market. The set point slider, intuitive scheduling, and dynamic fan and system buttons make managing comfort simple and convenient.

Simple Scheduling

Using a schedule saves time and money while keeping your home comfortable. However, in today's world many people do not fit into the conventional 5/1/1 routine. The PRO1 Connect app makes customizing your schedule easier than ever before.
